Pharmacovigilance . . . finally a flexible, affordable solution!

Ask yourself . . .

- Is your product safety data in a validated and secure system that is able to submit global electronic safety reports?
- Is your safety staff experienced and efficient in the day-to-day case processing? Can they handle the workload?
- Does your safety system have the scalability to grow with your corporate product platform?

Join us for an interactive and informative meeting to show you the safety solutions offered by Cato Research.

- Flexible safety database options
- Efficient safety process for both clinical and postmarketing
- Global reporting
- Risk management
- Growing product line

We will be available to discuss your specific safety requirements.
Brief presentations and demonstrations will be held every 30 minutes starting at 5 p.m.

Strategies. Solutions. Success.
