**Cato Research Presents at the Association of Clinical Scientists Annual Meeting  
in Amelia Island, Florida, USA**

Durham, NC, May 30, 2014 — Cato Research medical expert Jackson Snyder, M.D., Ph.D., R.A.C., Clinical Research Physician and Assistant Managing Director at Cato Research Washington, D.C. office will present at the 134th meeting of the Association of Clinical Scientists at Amelia Island Resort near Jacksonville, Florida, United States of America.

Dr. Snyder will present on the following topic: “Legal and Regulatory Aspects of Transfusion Medicine” at this year’s annual meeting for clinical scientists. It will be part of the program theme, “Frontiers in Transfusion Medicine”.

In addition to sessions on the program theme, other sessions will include reviews and research papers from the Sections on Clinical Biochemistry and Biotechnology, Molecular Biology and Genetics, Clinical Immunology and Microbiology, Therapeutics and Toxicology, Cell and Tissue Pathology, and Clinical Science in Practice.

Dr. Snyder serves as a Clinical Research Physician and managing director for Cato Research’s Washington office. He also serves as a Medical Analyst for Cato BioVentures. Dr. Snyder is a pharmacologist-toxicologist-pathologist with more than 25 years’ experience in academia, government, and industry. Dr. Snyder has experience in diverse areas of business, including project management, policy development, strategic planning, regulatory and safety compliance, intellectual property, and quality control and improvement. He has conducted basic and clinical research, practiced clinical and laboratory medicine, inspected a variety of research and clinical laboratories, and edited or authored more than 120 publications.

### **About Cato BioVentures**

Cato BioVentures is the venture capital affiliate of Cato Research, a global contract research and development organization (CRO). For over 20 years, Cato BioVentures and Cato Research have partnered with entrepreneurs, academic institutions, and a broad base of biotechnology and pharmaceutical companies to advance a robust portfolio of successful product development programs. Through strategic CRO service agreements with Cato Research, Cato BioVentures has invested its CRO Service Capital™ in innovative therapeutics, medical devices, and stem cell technologies that improve the pharmaceutical industry's research and development productivity. If strategic outsourcing for development, regulatory, and clinical support is a core component of a company's business plan, then Cato BioVenture's investment model can make a positive difference in the company's overall success. For more information about Cato BioVentures, call 919-361-2286 or visit [www.CatoBioVentures.com](http://www.CatoBioVentures.com).

### **About Cato Research**

Founded in 1988 by Dr. Allen Cato and Lynda Sutton and headquartered near Research Triangle Park, North Carolina, Cato Research is a full-service contract research and development organization providing strategic and tactical support for clients in the pharmaceutical, biotechnology, and medical device industries. Services range from design and management of preclinical and clinical studies to submission of regulatory documents required for marketing approval. With a staff of approximately 250 and offices located in the United States, Europe, Canada, Israel, and South Africa, the Cato Research team consistently demonstrates an unsurpassed level of responsiveness, flexibility, attention to detail, and passion for bringing their clients' products to market with speed and cost-effectiveness.
